Based on 77 respondents

* A total of 149 undergraduate students from the Department of Chemical & Biomolecular Engineering in the College of Liberal Arts & Science in August 2018, December 2019 or May 2019. Of those, 119 students responded to The Illini Success Survey, accounting for a 80% response rate. This report provides general information about the department’s graduating class and survey respondents. Excludes salary outliers less than or greater than 3 standard deviations from the mean. Also, note that N values less than 10 are for internal reference only. According to project IRB, items with N less than 10 cannot be shared publicly in the interest of respondent confidentiality.

** A total of 12 undergraduate students from the Department of Chemical & Biomolecular Engineering reported having experiential learning activities (e.g., research, study abroad, field experience, internship, or co-op) during their program.
